

ALL HOSE & VALVES

Ally Fire Nozzles

Selectable Litreage Nozzles

Features

- High strength aluminium construction with trademark Nituff finish (50 microns of PTFE impregnated hard-coated finish)
- For high pressure application up to 580 PSI (40 Bar)
- Constant flow selectable litreage nozzle with multiple flow settings
- Selected flow remains constant regardless of pattern change
- 1/4 turn for quick change from straight stream to fog
- Integrated stream shaper to enhance performance
- Combination of fog and straight stream
- Superb wide fog pattern for optimum personal protection
- Flush without changing pattern or shutting down
- Conforms to all aspects of NFPA 1964 (spray nozzles, shutoff and tips) 2008 edition

NFPA1964

Ally Fire Nozzles

Selectable Litreage Nozzles

- 1 316 Stainless steel spinning teeth ensure corrosion resistance and durability
- 2 Raised lugs for easier pattern and flow identification
- 3 Larger anodised indicating metal band with printing letters for long life and easy use. Top coating applied to prevent scratches (No stickers that fade or come loose)
- 4 UHMWPP valve seats to minimise wear
- 5 Highly strong handle to prevent breakage
- 6 Stainless steel inlet screen catches solids before they enter nozzle. (Other debris can be flushed without shutting down)
- 7 Metal shutoff balls ensures a smooth action for a long, dependable service life
- 8 Ergonomically shaped pistol grip for comfort. Pistol grip standard on all models. (Also available in various colours)
- 9 Each nozzle is etched with a unique series number. Aids in identification, tracking date manufactured and warranty details
- 10 Easy to service and repair
