Fire Fighting Backpack

Vinyl Bag Fire Pump

Features and Benefits

- VG-IndianBP comes with a straight shaft brass hand pump.
- Collapsible bag rolls up to store easily and save space. Each bag holds 19 litres.
- Bag material is Ventalex vinyl laminate, over an interwoven cloth base. Extremely durable with welding around the edge that will not leak!
- Dependable, all brass pump has dual nozzle system (stream or spray) and will easily offer years of service. It is easily maintained with lubrication, and can be serviced in the field without having to use special tools.
- Heavy duty disconnect at bottom of bag creates leak free connection between the 125cm hose and the bag. We "over-build" this junction so there are no problems.
- Large 100mm cap for easy filling, is tethered to the bag to prevent loss. It has a screen inside the cap to catch debris from dirty water.
- Premium, padded shoulder straps include clip-on strap to secure pump and leave hands free. Also, has centre cinch strap, to help balance load.

MODEL No.	VG-INDIANBP
DESCRIPTION.	FSV500 Smokechaser
